

# **Angola Solar Energy Systems Company**

## Overview

---

Solenova Ltd is a joint venture owned by Azul Energy and Sonangol E.P. The company's mission is to deliver on the potential of renewable energies in Angola. Providing clean energy for the Angolan people and supporting the country in achieving its energy transition goals. How many solar projects are in Angola?

In Angola, Sun Africa Constructs Seven Solar Projects Totaling 370MW - Africa's premier report on the oil, gas and energy landscape. Section: ENERGY TRANSITION · March 9, 2021 · No comments | Tags: feature, featured, gas.

Who backed Sun Africa's 370 MW solar PV project in Angola?

Sun Africa was awarded the prestigious "ECA/DFI-backed deal of the year" by "TXF Perfect 10" for Sun Africa's 370 MW solar PV project in Angola. Sun Africa initiated this project, developed it, and arranged long-term financing. At 188.88 MWdc, the Biopio site in Benguela is the largest single solar PV project in Sub-Saharan Africa.

How can solar energy be harnessed in Angola?

The most appropriate technology to harness the solar resource in Angola is the production of electricity through photovoltaic systems. This technology currently presents the fastest <sup>9</sup>installation time (less than 1 year) and lowest maintenance costs.

Who produces electricity in Angola?

Electricity is produced by Empresa Nacional de Electricidade de Angola. Angola ranks second in crude oil production in sub-Saharan Africa, after Nigeria. In 2022, the country produced an average of 1.165 million barrels of oil per day, according to its National Oil, Gas and Biofuel's Agency (ANPG).

What is energy in Angola?

Energy in Angola describes energy and electricity production, consumption

and export from Angola. The energy policy of Angola reflects energy policy and the politics of Angola. Biomass accounts for 58% of the country's energy consumption; oil accounts for 35%, gas 4% and hydroelectric power 3%.

Is electricity a viable alternative to diesel in Angola?

Medium and large scale projects in the Eastern System and in isolated systems - without batteries - present in Angola a levelized cost of electricity inferior to \$0,2/kWh, representing therefore an economic alternative to diesel.

## Angola Solar Energy Systems Company
