

Bahamas Grid Energy Storage Manufacturer

Overview

NASSAU, BAHAMAS — The technology group Wärtsilä will supply a 25MW / 27MWh advanced energy storage system for Bahamas Power and Light Company (BPL) to meet The Bahamas' spinning reserve requirements and significantly improve generation efficiency and system reliability for the island's grid. Why should you choose Bahamas Power & Light Company Ltd?

At Bahamas Power and Light Company Ltd., we believe in a future powered by sustainable energy. We are committed to providing you with a cleaner and greener future through reliable energy harnessed from our natural resources.

What is the Bahamas national energy policy?

The latest release of The Bahamas National Energy Policy documents the country's plans to implement renewable energy generation. This will introduce net-metering, which is the recording of energy flows in both directions. As the Bahamas has close to six daily peak sun hours. Solar Power can offset a significant part of your power bill.

How will Wärtsilä's gems Digital Energy Platform help the Bahamas?

The combination of flexible power generation and energy storage utilising Wärtsilä's unique GEMS Digital Energy Platform will support the Government of the Bahamas' plans to increase its share of renewable sources, notably solar, by 30 percent by 2030. Renewables hold the key to decarbonising the energy sector.
