

Can Cuban outdoor power supply be used

Overview

Do I need a power adapter in Cuba?

If you are visiting Cuba from the United States, you should bring a power adapter because US Type A or B outlets may not be readily available. If your device runs on 110 volts or is dual voltage, and the plug fits in a Cuban power outlet, it will work without a plug adapter in Cuba.

What power supply does Cuba use?

Cuba operates on a 110/220V supply voltage and 60Hz. Although the power supply in Cuba is mainly 110V, some of the newer hotels operate at 220V. Electricity supplies worldwide can vary from anything between 100V and 240V. It can be extremely dangerous to use an electrical appliance that is rated at a voltage different from the supply.

What type of power plug is used in Cuba?

In Cuba, power plugs and sockets (outlets) of type A, type B, type C and type L are used. The standard voltage is 110 / 220 V at a frequency of 60 Hz. Cuba, a Caribbean island nation, is known for its vibrant culture, stunning beaches, and fascinating history.
