

Croatia Economic Development Energy Storage Project

Overview

Will Croatia build Europe's largest energy storage project?

Croatia is preparing to build Eastern Europe's largest energy storage project. IE Energy has secured €19.8 million (\$20.9 million) to develop a 50 MW storage system, potentially extendable to 110 MW by 2024.

Is Croatia ready for solar energy storage?

"There is immense scope for energy storage in Croatia, predominantly for battery storage." GlobalData says that Croatia is now on target to meet its 36.4% renewable energy target by 2030. However, its recent investment in energy storage has not been accompanied by rapid solar PV development.

How much solar capacity will Croatia have in 2022?

The country might only add 2.5 MW of new solar capacity in 2022, and another 19 MW next year, according to the consulting firm. The International Renewable Energy Agency (IRENA) says that Croatia had 309 MW of installed PV capacity at the end of 2021. GlobalData expects the country to reach 770 MW of cumulative solar capacity by 2030.

Croatia Economic Development Energy Storage Project

Discover New Opportunities: Croatia Launches a Major State ...

This program represents a significant opportunity for companies looking to invest in modern energy storage solutions, playing a key role in Croatia's energy transition.

Croatia investing in storage amid slow solar development

Croatia is preparing to build Eastern Europe's largest energy storage project. IE Energy has secured EUR19.8 million (\$20.9 million) to develop ...

Croatia is investing 500 million euros in batteries for energy storage

The Croatian government has prepared 500 million euros to install batteries for storing energy produced from renewable sources. Minister of Economy and Sustainable ...

Croatia investing in storage amid slow solar development

Croatia is preparing to build Eastern Europe's largest energy storage project. IE Energy has secured EUR19.8 million (\$20.9 million) to develop a 50 MW storage system, ...

Geothermal heat and power project planned in ...
