## Overview

---

How many solar panels are made in East Africa?

Its current manufacturing capacity is 140,000 solar panels per year, and it is now set to double this within the next 18 months to meet rising demand in East Africa. Over the past decade, the prices of solar panels have gone down, making them more affordable for households in off-grid areas.

Is greenhouse a Certified Energy installer?

Proven. GreenHouse is proudly accredited by the world's leading energy technology brands. As an Authorised Victron Energy Installer, Certified Tesla Powerwall Installer, and Sigenergy Certified Service Partner, we deliver systems that are not only expertly designed – but officially supported and trusted by the manufacturers themselves.

Why should you choose a Richel Photovoltaic greenhouse?

Opting for Richel photovoltaic greenhouses provides the combined benefits of photovoltaic energy production (lower energy costs, additional income generation, low environmental impact through green energy production) and the advantages of greenhouses (protection against weather, better crop precocity, etc.).
