

Greece Thessaloniki New Energy Storage Subsidy Project

Overview

Does Greece have a battery storage subsidy program?

Greece's latest auction has awarded subsidies to 188.9 MW of standalone, front-of-the-meter, utility-scale battery energy storage. The auction was the third and final edition of a battery storage subsidy program launched in 2023, with the country now turning its focus towards a new 4.7 GW unsubsidized BESS scheme.

What is Greece's third energy storage auction?

Greece's third energy storage auction has been completed with nine projects selected. It was the final auction where the state provides subsidies to build battery energy storage systems (BESS). A total of almost 800 MW in capability has been awarded through all three storage auctions.

Does Greece have a Bess subsidy program?

Moving forward, Greece is abandoning subsidizing BESS via auctions. Instead, the country has recently launched a new program for 4.7 GW of unsubsidized BESS which will be offered priority grid connections on a merchant basis without subsidy support. Why is Greece focusing on energy storage?

Greece has been actively focusing on energy storage since the emergence of the RES "boom" in 2020. The country recognised the pivotal role of energy storage in the energy transition and emphasised its importance in the first iteration of the country's National Energy and Climate Plan in 2019.

Which energy plants will be installed in Greece?

The rest of the list comprises Amber Energy (18 MW), Plain Solar (7.9 MW), Enercoplan (25 MW), Arkadia Storage (10 MW), Heliothema (10 MW) and Ardassa Energy (18 MW). The facilities will be installed in the Western

Macedonia region in northern Greece and in the municipalities of Megalopolis, Tripoli, Gortynia and Oichalia in the Peloponnese region.

Which Greek companies were successful at the tender?

Other Greek firms who were successful at the tender are: PPC Renewables with a 50 MW/200 MWh project; Enerkoplan Investment with a 25 MW/100 MWh project; Ardassa Energy with a 18 MW/72 MWh battery; Arcadia Storage, which is owned by Eunice, with a 10 MW/40 MWh battery; and Plain Solar with a 7.9 MW/31.6 MWh facility.

Greece Thessaloniki New Energy Storage Subsidy Project

GREECE

The rapid growth of Greece's storage market is driven by a combination of factors, including Greece's heavy reliance on fossil gas which has led to high price volatility, ambitious energy ...

Greece's Solar & Storage Funding Scheme

Subsidy provided under the program for solar PV systems will cover up to 75% of the cost for households and 60% for farmers. If the PV system is accompanied by a battery ...

The Future of the Energy Sector Trends and Developments ...

In terms of capacity, Greece increased its renewable energy capacity by 1,5 GW (+12,2% vs 2021) mainly thanks to the high penetration of solar technology, outperforming the EU average ...

Greece: EUR400 million EIB backing to MYTILINEOS to accelerate ...

The EIB has committed EUR400 million to support a significant new investment for MYTILINEOS Energy and Metals (MYTILINEOS), which will accelerate renewable energy ...

Greece readies for next battery storage growth phase

Greece's energy storage market is hot with a number of new policies paving the way to new applications in the market. The government is now working a new plan, which will ...

Greece awards 188.9 MW for subsidized battery storage in final ...
