

How much does a home solar panel cost in Barbados

Overview

Currently the installation costs for residential systems in Barbados can start around US \$5,000 and increase subject to the system and equipment installed. The proposed payback period for these systems is also estimated to be 5 -7 years. Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is “high”. If you could purchase a. Continue reading →.
