

Inverter 220v 600W

Overview

What is the rated power of an inverter?

The rated power of this inverter is 300W and the maximum power is 600W. High power and large appliances like air conditioners, refrigerators and washing machines are not suitable to be connected to this inverter. For high power or special demand devices, choose an inverter with a higher power rating or avoid using the inverter for power supply.

What is a solar grid tie micro inverter?

Efficiently turns sunlight into clean and green power. Our solar grid tie micro inverter employs MPPT technology, reverse power transmission, and digital control. It is designed to provide sufficient power to drive various household appliances. Moreover, it has a prolonged service life given its IP65 waterproof design and aluminum alloy structure.

Why should you buy a vevor inverter?

The first step on the sustainable energy path is energy conservation, and this inverter aims at achieving exactly this. VEVOR is a leading brand that specializes in equipment and tools. Along with thousands of motivated employees, VEVOR is dedicated to providing our customers with tough equipment & tools at incredibly low prices.

What if the inverter is not working?

The inverter also has over-temperature protection if the temperature is high. Then the inverter will automatically reduce the working output efficiency. Or stop working. After cooling down, restart. It is recommended to install the inverter in a ventilated, dry and cool place.
