

New Energy Charging Station Search

Overview

Where can I find a charging station?

ChargeFinder will eventually also be available as apps in Apple CarPlay, Android Auto and Android Automotive. Specific city pages provide a good overview of charging stations in a particular city. For larger cities like Los Angeles, New York, San Francisco and Seattle you can find more information about charging stations.

How do I find out if a charging station is nearby?

The station page shows the charging speed, outlet type, number outlets, price, which operator owns the station, and other relevant location information. With ChargeFinder's "Food and Shopping Nearby" it's easy to find out if there are eateries or other points of interest adjacent to the charging station.

How do I find the best charging stops?

If you're planning a trip, Google Maps will suggest the best charging stops along the way, based on your battery's charge level. Electric vehicle ownership is on the rise, which means more people are looking for ways to charge their car — whether they're on the go or planning their drive.

What is the alternative fueling station locator?

The Alternative Fueling Station Locator from the U.S. Department of Energy's Alternative Fuels Data Center shows electric vehicle charging stations in the United States by charging level, access type, station status, and other key data points.

Which charging stations are compatible with the chargemap passstations?
