

Portuguese Energy Storage Container Power Station Company

Overview

Endesa Generación Portugal, part of Enel Group, has been awarded the connection rights to develop a renewable energy project combining solar, wind, green hydrogen and a 168.6MW battery energy storage system (BESS) to replace the country's last coal power station. Who won Portugal's new battery energy storage system tender?

(EUR 1 = USD 1.048) Aquila Clean Energy EMEA, the European renewable energy arm of German investment management firm Aquila Group, announced that it was among the winners in Portugal's latest battery energy storage system (BESS) tender, securing 40 MW across two projects.

Is Powin launching a battery energy storage system in Europe?

This project marks Powin's first venture in Europe. Global energy storage supplier Powin LLC and Portuguese integrated energy company Galp have partnered to install a utility-scale battery energy storage system (BESS) in Algarve, Portugal. The 5 MW/20 MWh battery system will be built at one of Galp's solar power plants near the village of Alcoutim.

Why is Powin launching a storage platform in Portugal?

This project holds additional significance as it marks Powin's first operational project in Europe. The Portland, Oregon-based firm brings to Portugal its innovative storage platform and experience from other large deployments around the world, aligning with European goals for decarbonization and clean energy infrastructure.

Is Portugal a good place to invest in solar energy?

Portugal is widely recognized as a European leader in renewable energy adoption, and projects like the Alcoutim solar park further highlight the country's commitment to sustainability and energy independence. The region benefits from abundant sunshine year-round, making it an ideal location for large-scale solar generation and now, energy storage.

How much solar power does Portugal have in 2022?

Portugal's cumulative PV capacity hit 2.59 GW at the end of 2022. It aims to install 20.4 GW of solar by 2030. The country has set a goal of at least 80% of electricity production coming from renewable sources by 2050. In November, it enjoyed a weekend of being powered solely by renewables.
