

State Power Investment Corporation and China Mobile cooperate on 5G base stations

Overview

How many 5G base stations will China build in 2025?

China plans to construct over 4.5 million 5G base stations in 2025 while introducing additional policy and financial incentives to support industries expected to shape the next decade, the country's Ministry of Industry and Information Technology (MIIT) announced during its annual work conference.

How many 5G base stations are there in 2024?

"Accumulatively, there were over 2.4 million 5G base stations put into use [at the end of 2024]. We have built the world's first large-scale commercial 5G-A network, with RedCap covering all cities nationwide and gigabit broadband covering 480 million households," said China Mobile in its annual report.

Will 5G Revolution & 6G innovation be a priority next year?

The move comes as the country charted its vision for industrial growth during a two-day work conference of the Ministry of Industry and Information Technology. With 4.19 million 5G base stations already in operation, the industry regulator said that "promoting 5G revolution and 6G innovation will be one of the priorities" next year.

Who are China's 5G operators?

Chinese main operators are China Mobile, China Telecom and China Unicom. In addition to its expected expansion in the 5G field, China noted that it is also set to begin trials for 10-gigabit optical networks and enhance computing power infrastructure, reflecting the growing demand for artificial intelligence (AI) technologies.

How many 5G phone subscriptions are there in China?

China's 5G mobile phone subscriptions surpassed 1 billion by the end of November, local press reported, citing data released by the Ministry of Industry and Information Technology. The 5G subscriptions now represent

56% of all mobile lines in China, reflecting a 9.4 percentage point increase compared to the previous year.

How 5G technology is transforming China's economy?

According to MIIT data, 5G technologies have been integrated into 71 major economic categories in China. Zhao Zhiguo, the ministry's chief engineer, said the ministry will continue to promote the digital transformation of industries and carry out the AI Plus initiative to speed up new industrialization empowered by digital technologies.
