

The largest energy storage project in Sao Tome and Principe

Overview

At its core, the system combines solar photovoltaic arrays with a flow battery storage setup that could power 15,000 homes. But here's the kicker—they're using retired EV batteries from Europe, giving old power packs new purpose under the African sun [1].

The largest energy storage project in Sao Tome and Principe

[Sao tome and principe energy storage 2025](#)

The government is already known to be keen to support the development of large-scale energy storage system facilities as a key tool for integrating the 500GW of non-fossil fuel energy ...
