

# **Which companies are building Myanmar s 5G base stations**

## Overview

---

Will atom launch the first 5G service in Myanmar?

ATOM, the operator formerly known as Telenor, has unveiled plans to invest hundreds of millions of dollars in Myanmar in the coming years, one of its goals being to launch the market's first 5G service. ATOM, or Advancing Telecommunications of Myanmar, to give it its full title, officially launched in Myanmar on Wednesday.

Why is 5G important in Myanmar?

If we use generators, it is difficult to supply diesel fuel." Myanmar is gearing up for the rollout of 5G services nationwide, which have the potential to produce breakthroughs in socio-economic development by fostering digital evolution in industries such as agriculture, health and manufacturing.

Is 5G free in Myanmar?

Join 56,000+ members. Yes it's completely free. ATOM, the operator formerly known as Telenor, has unveiled plans to invest hundreds of millions of dollars in Myanmar in the coming years, one of its goals being to launch the market's first 5G service.

Will MPT be a 5G provider in Myanmar?

Last year MPT has carried out High-Speed LTE expansion in Yangon and Mandalay and 5G trial will be one of MPT's initiative in satisfying customers. According to GSMA website, as of January 2024, 261 operators in 101 countries had launched commercial 5G services and MPT will be one of the 5G service providers in Myanmar.

How fast is 5G in Myanmar?

On August 5th, Myanmar fourth mobile operator Mytel announced the launch of the first 5G network in Myanmar. The pilot was achieved using 3.5GHz frequency and reached 1.6Gbps download speed on a single handset device.

## Will Myanmar have a 5G rollout?

The government will likely require 5G licence holders to offer coverage nationwide, but this will present serious challenges, and only Myanmar's major cities would be profitable in the near term. Other challenges to a 5G rollout include an immature handset ecosystem, although it is only a matter of time before 5G compatible devices are commonplace.

## Which companies are building Myanmar s 5G base stations

---
