

Which companies are involved in telecommunication base station inverters in Tanzania

Overview

On the other hand, there are specific risks one may be exposed to in Tanzania. The undeveloped IT industry, language barriers, and inexperienced.

So, obviously, you will not find in Tanzania a well-developed IT infrastructure and the industry overall. However, you may find in Tanzania a friendly.

You can't really tell if Tanzanian IT companies are reliable or not. Simply because the local digital agencies didn't take a chance to make a name for themselves.

In the region, there are countries that perform better and lower than Tanzania. Even though the development levels of the IT sector are not comparable between.
