

Which manufacturers are there for new energy base stations in Qatar

Overview

What does Qatar Electricity & Water Company do?

It is a single-cycle project that Qatar Electricity and Water Company quickly tendered to cope with the peak electricity demand in summer. The main scope of work includes the design, procurement, construction and commissioning of two F-class gas turbine generator sets and related auxiliary systems.

What is Qatar's 'Belt & Road' project?

This project is a key project for the company to actively respond to the country's "Belt and Road" initiative and seize the development opportunities of natural gas and new energy power stations under Qatar's "2030 Economic Development Vision", which will further help Qatar optimize its energy structure.

Where is a single-cycle project located in Qatar?

The Project is located in the Ras Abu Fontas Industrial Zone on the south side of Doha, Qatar. It is a single-cycle project that Qatar Electricity and Water Company quickly tendered to cope with the peak electricity demand in summer.

Is Hitachi delivering a grid connection solution for Qatar's Al Kharsaah solar power plant?

Hitachi Energy announced it has delivered its grid connection solution for Qatar's Al Kharsaah solar photovoltaic (PV) power plant – one of the world's largest and the country's first utility-scale solar PV park, 80 kilometers west of Doha – which was inaugurated by His Highness Sheikh Tamim bin Hamad Al Thani, Amir of the State of Qatar.

How much energy does Al Kharsaah generate?

Al Kharsaah has a generating capacity of around 800 megawatts. It will avoid

26 million metric tons of carbon dioxide emissions during its operating life and help Qatar progress towards its goal of reducing greenhouse gas emissions by 25 percent by 2030.
